*** Member organizations and individual subscribers will receive a daily compilation of sustainable energy news stories and/or news headlines (with URLs) totaling about 60 per week.

Member organizations and individual subscribers will also receive copies of the "Sustainable Energy Studies" compiled by SEC member group, the SUN DAY Campaign. These studies are summaries of recent reports by non-profit, business, academic, and governmental organizations documenting the near-term potential of renewable energy and energy efficient technologies. On average, one or two such studies are distributed each week.

In addition, member organizations will receive copies of news releases, policy statements, and letters issued by the Sustainable Energy Coalition as well as information about events sponsored by the Sustainable Energy Coalition such as the annual Congressional Renewable Energy and Energy Efficiency EXPO. Member organizations are listed with their contact information on the Sustainable Energy Coalition's web page.
